A Message from the Garrett County Health Officer

Garrett County is a unique place nestled in the mountains of Western Maryland, where natural beauty abounds with plenty of space to enjoy. Our vision is to make Garrett County a healthier place to live, work, and play! The role of Public Health is one of necessity and is intertwined in the fabric of our community. Though Garrett County is a wonderful place to live, given the rural nature of the area, access to care continues to be a primary concern. At the Garrett County Health Department, we not only provide traditional population based public health programs, but are also an essential community provider for many direct specialty services. By doing so, we provide assurance that these services are available for our residents.

“The Garrett County Health Department’s mission is to promote, protect, and improve the health of citizens and visitors of Garrett County.”

We strive to provide the 10 essential CDC public health services important to any community. We continually work to respond rapidly to changing conditions or to take new approaches to solving long standing problems. We invite you to browse our report and see for yourself the significant impact that your local health department has in this community.

Rodney Glotfelty, L.E.H.S. M.P.H.
Garrett County Health Officer

About the GCHD

Garrett County Health Department

The Garrett County Health Department has a total workforce of 160, comprised of merit, special pay, and 3rd party contractual employees, and is the 15th largest employer in the county. The total operating budget is approximately $12,000,000, which funds 72 individual programs. The Garrett County Health Department is funded by state core dollars, local core dollars, state targeted grants, direct federal grants, pass through federal funding, and fees for service programs.

The Health Officer is appointed by the Secretary of Health upon recommendation of County Commissioners. The Garrett County Board of Health consists of Garrett County Board of Commissioners with the Health Officer as Executive Secretary and Secretary. The Health Officer administers delegated programs from Secretaries of Health and Environment. The Garrett County Health Department administers ordinances adopted by the Garrett County Board of Health.
